The county is providing this table of property tax rate information as a service to the residents of the county. Each individual taxing unit is responsible for calculating the property tax rates listed in this table pertaining to that taxing unit and providing that information to the county.

**SB2 of the 86th Texas Legislature changed wording within the Texas Property Tax Code regarding Truth-In-Taxation. The changes are struck-out in red and replaced with the new verbiage.

The **Adopted Tax Rate** is the tax rate adopted by the governing body of a taxing unit.

The **Maintenance and Operations Rate** is the component of the adopted tax rate of a taxing unit that will impose the amount of taxes needed to fund maintenance and operation expenditures of the unit for the following year.

The **Debt Rate** is the component of the adopted tax rate of a taxing unit that will impose the amount of taxes needed to fund the unit's debt service for the following year.

The **No-New-Revenue Effective Tax Rate** is the tax rate that would generate the same amount of revenue in the current tax year as was generated by a taxing unit's adopted tax rate in the preceding tax year from property that is taxable in both the current tax year and the preceding tax year.

The **Effective Maintenance and Operations Rate** is the tax rate that would generate the same amount of revenue for maintenance and operations in the current tax year as was generated by a taxing unit's maintenance and operations rate in the preceding tax year from property that is taxable in both the current tax year and the preceding tax year.

The **Voter Approval Rollback Tax Rate** is the highest tax rate a taxing unit may adopt before requiring voter approval at an election.

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. In which case, the taxing unit reduces its no-new-revenue and voter-approval tax rates to offset the expected sales tax revenue.
